PROFILE

Ambitious and dedicated software developer specializing in backend and frontend development. Experienced in building secure and scalable web applications, including my main project "Dixen" – a role-based event management platform with JWT and 2FA. Strong in problem-solving, system architecture, and teamwork. Curious about complex technologies and motivated to work with web, mobile, and AI solutions.

WORK EXPERIENCE

IT Specialist Apprentice - Programming

2021 - 2026

TEC - Technical Education Copenhagen

- Develop full-stack web applications using Angular and ASP.NET Core
- Implement authentication and security solutions including JWT and 2FA
- Design and work with SQL databases and REST APIs
- Write unit tests using xUnit
- Collaborate on system architecture and scalable application development

Hospital Assistant (Part-Time)

2022 - 2025

Herlev Hospital

- Worked with the hospital's digital à la carte concept for patients
- Ensured correct handling and serving of nutrition-adapted meals
- Collaborated with kitchen staff and healthcare professionals
- Worked efficiently under pressure with strong focus on quality and hygiene

District Project Coordinator

2011 - 2014

Ipas Nepal

- Planned and coordinated district-level projects
- Communicated with stakeholders and project partners
- Prepared reports and maintained project documentation

EDUCATION

Data Technician - Specialization in Programming

2020 - 2026

TEC - Technical Education Copenhagen

Bachelor's Degree in Public Health

2008- 2011

Hope International College, Nepal

FUN FACT

Curious about AI and Machine Learning - eager to explore how technical development can meet biostatistics and epidemiology.
